

AI Health Diagnostics Report

Generated on: January 19, 2026

Patient Profile

Name: lokesh
Age: 21
Gender: Male
Medical History:

Executive Summary

The patient is experiencing anemia likely due to iron deficiency and has signs of a potential infection or inflammation. Both conditions are currently at a medium severity level. With proper lifestyle adjustments and medical follow-up, these issues can be addressed.

Flagged Test Results

Hemoglobin: 9.1 gm/dl - LOW
Total R.B.C. Count: 3.19 mill/cmm - LOW
Hematocrit (PCV/HCT): 27.2 % - LOW
Red Cell Distribution Width (R.D.W.-CV): 16.5 % - HIGH
Total W.B.C. Count: 10560 /uL - HIGH
Neutrophils: 87.7 % - HIGH
Lymphocytes: 5.9 % - LOW
Eosinophils: 0.7 % - LOW
Neutrophils (abs): 9261.12 /uL - HIGH
Lymphocytes (abs): 623.04 /uL - LOW

Detailed Analysis

Detected Patterns:

Iron Deficiency Anemia (Severity: Medium)

- Low Hemoglobin
- Low Total R.B.C. Count
- Low Hematocrit (PCV/HCT)
- High Red Cell Distribution Width (R.D.W.-CV)

Infection or Inflammation (Severity: Medium)

- High Total W.B.C. Count
- High Neutrophils
- High Neutrophils (abs)

Immunosuppression (Severity: Low)

- Low Lymphocytes
- Low Lymphocytes (abs)

Organ Health Assessment:

Heart: Stable

Liver: Stable

Kidney: Stable

Other: Bone Marrow: may be affected due to anemia and abnormal blood cell counts

Personalized Action Plan

1. Increase iron intake through diet by consuming more red meat, spinach, and fortified cereals
2. Consider iron supplements after consulting with a healthcare provider to help manage anemia
3. Stay hydrated by drinking plenty of water and limit sugary drinks to help your body recover from potential infection
4. Engage in moderate physical activity, like walking, to help improve overall health without overexerting
5. Schedule a follow-up appointment with a healthcare provider in 2-3 months to monitor progress and adjust the treatment plan

IMPORTANT MEDICAL DISCLAIMER

This health plan is for informational purposes only and should not be considered as medical advice. Always consult with a qualified healthcare professional for personalized guidance and treatment. They can provide a comprehensive evaluation and recommendations tailored to your specific health needs.
